

# FPU4000 Series

## Front Panel Upgrades for WPS4003/04/08

*An economical way of updating your existing WPS Whelen products to the latest technology is by replacing the electronics.*

Often the speaker array outlasts the electronics. Instead of replacing the entire station, replace just the electronics. All of the latest assembled and tested components are mounted on the swing-out panel and are ready to replace the existing panel. Easy installation at a fraction of the cost of a new product.

### Front Panel Features

- One rotor control
- Motherboard
- Power amplifiers each with 400 watt output
- Battery charger
- ESC2030 electronic controller
- Pressure sensitive switch pad
- New harnesses

### Front Panel Upgrade Models

- **FPU4003** - For Model WPS4003, three power amplifiers each with 400 watt output
- **FPU4004** - For Model WPS4004, four power amplifiers each with 400 watt output
- **FPU4008** - For Model WPS4008, eight power amplifiers each with 400 watt output

**Factory quotation required for all Front Panel Upgrades.**
